## **The MJM Fund “Educating Children with Diabetes”**

On August 10, 2010, our brother, Michael, passed away at the age of 49 from complications associated with diabetes. Michael was diagnosed with Type I diabetes in his early twenties and lived with the disease for more than half his life. Our goal is to honor Michael by making a difference in the lives of children who are also living with this disease.

Thanks to the generous donations from the past 16 golf outings, the MJM Fund has sent many children (who would not otherwise be able to attend) to Camp Nejeda. The camp is located in Stillwater, NJ and is specifically designed for children ages 7-16 with diabetes. The camp is staffed with doctors, nurses and nutritionists. All of whom are there to enhance the lives of children with diabetes by providing a fun and educational camping experience in a safe environment. To find out more about this amazing camp, please visit [www.campnejeda.org](http://www.campnejeda.org).

We would like to thank you for your continued support.
